

Warwick Managed IT Services

A **proactive approach** to user support and infrastructure management

warwick

Optimizing Technology. Enabling Communication.

A Complete Suite of Fully-Managed IT Services

We're here to help you take the hassle out of IT management, so you can focus on your core business. Our offerings include:

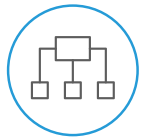

Network Remote Monitoring and Care

Warwick keeps tabs on your network and systems – including servers, desktops and mobile devices – and when an issue occurs, our support teams jump in to investigate and work to fix it. We also provide patch deployment, service pack installation and anti-virus support.

Help Desk

Our help desk provides unbeatable support, around the clock if needed. Our technicians are available via phone, email, or online chat and are ready to answer questions and provide immediate support for your entire staff.

Vendor Liaison

Warwick works with your hardware and software vendors on issues covered by maintenance agreements or warranties.

Quarterly Reviews

Warwick's quarterly reviews keep you informed and prepared for your network needs based on the current condition and their plans for your future. These meetings are a powerful collaboration that sets the roadmap for the next quarter and beyond.

Business Continuity

Our data backup and continuity solutions ensure your critical information is secure, backed up and accessible whenever you need it – even during a network failure or a disaster.

Custom Project Work

We also offer custom projects designed to help optimize your IT infrastructure – including hardware and software installations, migrations, setups, configurations and more. Evening and weekend installations are also available.

**FOR DECADES, BUSINESSES
HAVE RELIED ON WARWICK
FOR TELECOMMUNICATIONS.**

**Now, they are relying on
us for IT support as well!**
